Education of pre school children is so important as gives each child a start in real terms in our fast developing World where the educated child is the one who has the best of future opportunities even those who live in a rural setting like the children in northeast Romania.

Via the outstanding timmie project that involves a free set of highly motivational learning books for every child and learning cards also for class use thanks to the excellent work of Miriam Charmant with her Husbands full support has now resulted in every kindergarten in Suceava County of benefiting from this outstanding range of early learning tools.
