Photo resume.

We are pleased to provide an update of our voluntary work in photograph format

Education for every child is the priority of St RCHF and we are blessed with the very best learning tools produced by Miriam Charmant that carry the renowned Timmy Brand name that is well known to Romanian children and that allows the younger child and the child with difficulties to learn with ease.

Education is a must for every child, yes including the poorest of children and within St RCHF each year with donations we are able to purchase back to school requisites for between 80 and 100 children. Every child needs these basics to enter in class with in Romania and we provide for those who cannot afford in marginalized families each new term.

St RCHF continual support for Ukraine refugees who have lost everything they ever had and fled home as refugees arriving in northeast Romania at Siret, Raduati Prut and Stâncă border crossings. We support their needs with food aid, toiletries, children's items and baby needs with a great deal of this support being at the Stefanesti refugee center in Botosani County.

Special thanks go to our sponsors for the support of Ukraine refugees including S&Q Europe BV, Renee Besseling and family, Charmant Family including Mum Miriam and all who have helped so that we can try make life easier for these frightened refugees on arrival at Refugee centers. In photo above is a letter of thanks to RCHF for our support from the Mayor of Stefanesti.

Winter and Spring heating supplies for those who cannot afford with help of and sincere thanks to our sponsors via Remko Jorritsma at Stichting In de Vrijheid NL. With this outstanding support by the grace of God we are able to purchase heating supplies and deliver and donate same free of charge to those too poor to afford, thus saving them from freezing in their homes in the cold season.

Our thanks go to the Mayor of Vaculesti for allowing his council staff to help deliver wood bricks and for the free use of the vehicle.

Within northeast Romania are many families and old aged people alike who live from day to day not even knowing where their next meal will come from as are marginalized and extremely poor. Within St RCHF we donate freely to the needy including the homeless food top up aid all year round and include also where required toiletries to keep basic hygiene standards at a decent level often purchasing fresh food at local markets.

Portable toilets for ones without toilets and solar light packs for those without electricity make life more bearable for those in difficulty in rural villages and in special for infirm people and are a part of St RCHF ongoing projects with free donated items to all we find who are in need.

St RCHF has now joined in support of OVOM with One Voice One Message to address and via education and open dialogue put an end to the huge drug problems that affect our societies today Worldwide.
