Each month a part of donations within St RCHF goes towards helping those who have few means to help themselves. In the worst hit families basic food is often in short supply. There are children who maybe get to eat fish or meat once a week and this is certainly not enough for a growing child also pensioners who the same cannot manage on their very small pensions so we help as an example in the photos here with faces blocked out to offer dignity.

Below a woman searches a rubbish skip for food and there are many who do this.

It appears there is no shortage of funds for armaments but a huge lack in funds to offer a basic decent life to the poorest in Europe today, thus its charities like ours and other step in to help.
