

Freely donated heating supplies to keep the heart and home warm

Our thanks each year go to Remko Jorritsma at Stichting In de Vrijheid Zorg for their outstanding support with freely donated heating supplies that keep the extreme cold away from the most marginalized of people and families alike in northeast Romania each year.

So many who live in small rural dwellings with hardship unseen by all but God above. This is where the sheer love of Stichting In de Vrijheid Zorg via Remko is able and in fact for many years now offers warmth that keeps the extreme cold away for so many in need via heating funds. In Romania each year people often old and alone pass away to God above because of a lack of heating in their homes, thus this project is a LIFE SAVING one in every sense of the word and is ongoing weekly in the cold season which in Romania is different to that of Western Europe often in temperatures and precipitation alike.

Take a look at just some of many who we helped over the years of many in northeast Romania do not as is a luxury they cant afford! With the blessings of God above via Remko we are able to give them warmth and dignity that they all deserve.
