

Anniversary 'Timmie' combination book 2025

The arrival of the 'Timmie' combination book was a good start to 2025 as with some 3750 copies printed, boxed and all arrived safe at our deposit in Romania there is certainly plenty of children who will again benefit from this unique easy learning method devised by Mr Miriam Charmant back in Helmond many km away from Romania!

This latest anniversary book encapsulates all of the previous editions of the huge Timmie easy learning range of products that we have entrusted to thousands of children in both kindergartens and schools all over northeast Romania for many years now. In short the hard unseen work of Mrs Miriam Charmant fully supported by her Husband Jeroen has truly lifted educational levels in special for the rural children in villages that lack modern education equipment and learning tools over many years. This full range of 'Timmie' products which also includes learning card sets are all brilliantly animated and this along with the exceptional text allows children to learn with ease and enjoy their learning each day.

Below just a few photographs of the 'Timmie' easy early learning project in action in Romanian kindergartens and schools over the years!
